## Loading required package: ggplot2
```

```

Bude is a town in Western England, well-known as a beach resort. We find the coordinates using `geocode()`.

```
Bude_coord <- geocode("S W Coast Path, Bude EX23 8HN, UK")
```

```
## Information from URL : http://maps.googleapis.com/maps/api/geocode/json?address=S%20W%20Coast%20Path
```

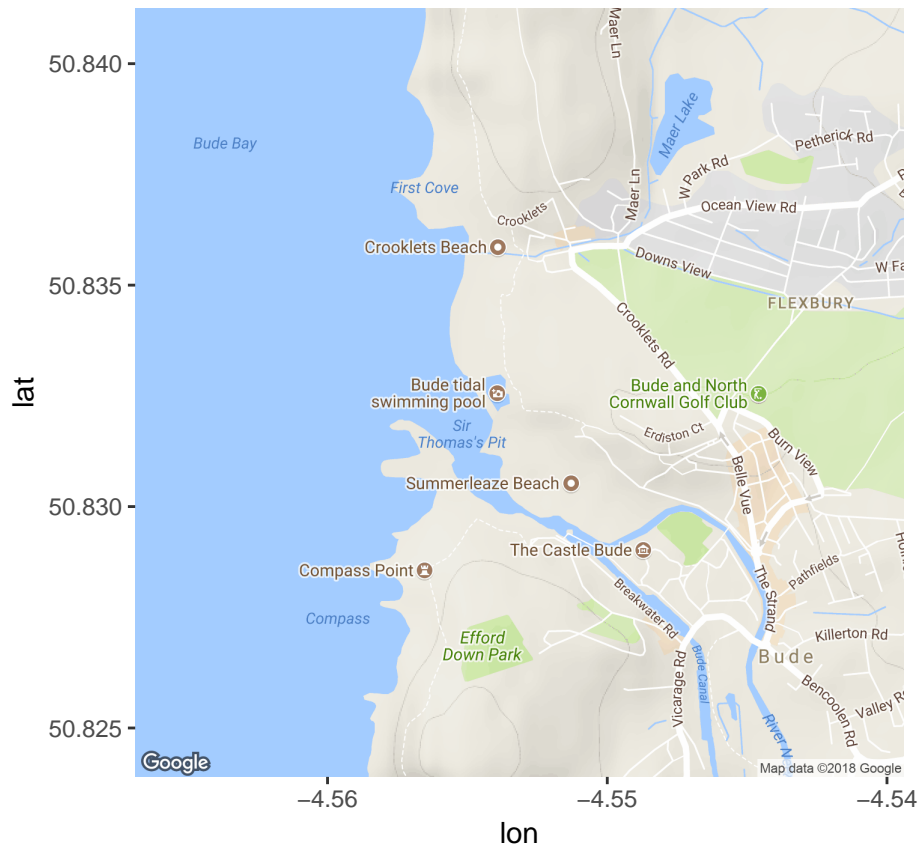

I chose the center of the map to be the Bude North Cornwall Cricket Club, as that is the central location of this assignment, and allows for better viewing of the surrounding area.

Road map

```
Bude_roadmap <- get_map(Bude_coord, zoom = 15)
```

```
## Map from URL : http://maps.googleapis.com/maps/api/staticmap?center=50.832584,-4.553165&zoom=15&size=
```

```
ggmap(Bude_roadmap)
```

Watercolor map

```
Bude_watercolor <- get_map(Bude_coord, maptype = "watercolor", zoom = 15)
```

```
## maptype = "watercolor" is only available with source = "stamen".
```

```
## resetting to source = "stamen"...

Marking vacation spots

Two local beaches

Summerleaze Beach

```
summerleaze <- geocode("Summerleaze Beach, Summerleaze Cres, Bude EX23 8HN, UK")
```

```
## Information from URL : http://maps.googleapis.com/maps/api/geocode/json?address=Summerleaze%20Beach,%20Summerleaze%20Cres,%20Bude%20EX23%208HN,%20UK

Cricket grounds (Bude North Cornwall Cricket Club)

```
cricket_grounds_coord <-geocode("Bude North Cornwall Cricket Club")
```

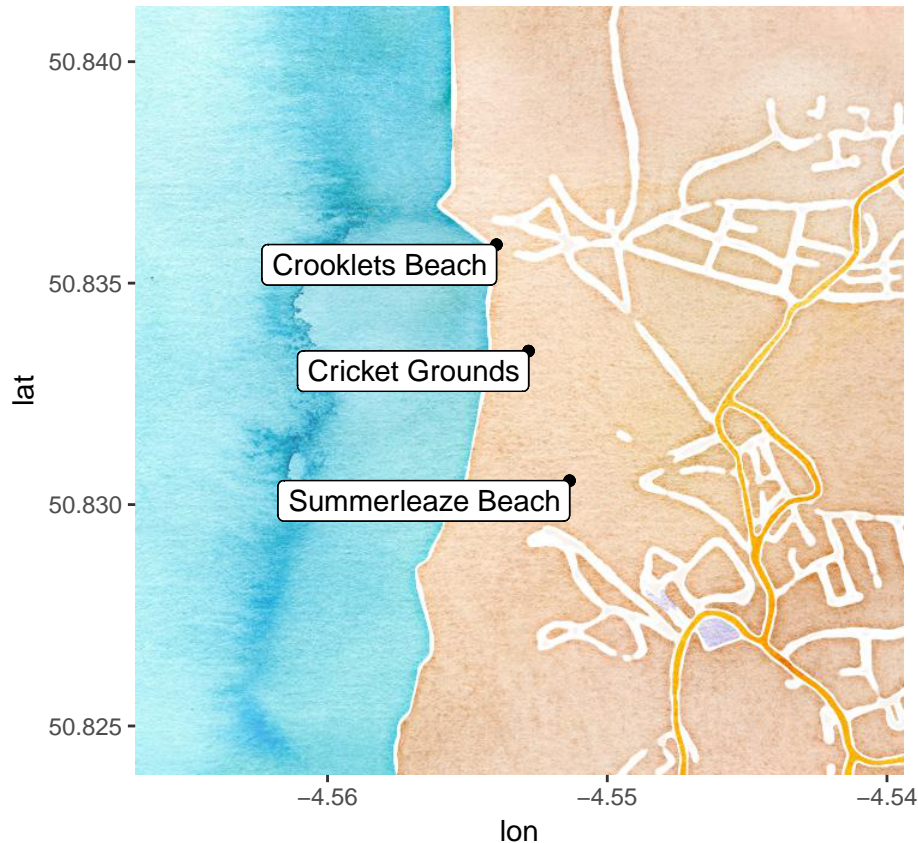

```
## Information from URL : http://maps.googleapis.com/maps/api/geocode/json?address=Bude%20North%20Cornwall

Putting them on the maps

```
ggmap(Bude_roadmap) +  
  geom_point(mapping = aes(x = summerleaze$lon, y = summerleaze$lat)) +  
  geom_label(x = summerleaze$lon, y = summerleaze$lat, label = "Summerleaze Beach", hjust = 1, vjust=1) +  
  geom_point(mapping = aes(x = crooklets$lon, y = crooklets$lat)) +  
  geom_label(x = crooklets$lon, y = crooklets$lat, label = "Crooklets Beach", hjust = 1, vjust=1) +  
  geom_point(mapping = aes(x = cricket_grounds_coord$lon, y = cricket_grounds_coord$lat)) +  
  geom_label(x = cricket_grounds_coord$lon, y = cricket_grounds_coord$lat, label = "Cricket Grounds", h
```

```
ggmap(Bude_watercolor) +  
  geom_point(mapping = aes(x = summerleaze$lon, y = summerleaze$lat)) +  
  geom_label(x = summerleaze$lon, y = summerleaze$lat, label = "Summerleaze Beach", hjust = 1, vjust=1) +

  geom_point(mapping = aes(x = cricket_grounds_coord$lon, y = cricket_grounds_coord$lat)) +  
  geom_label(x = cricket_grounds_coord$lon, y = cricket_grounds_coord$lat, label = "Cricket Grounds", h
```

Marking route from Bude North Cornwall Cricket Club to The Barrel at Bude

The Barrel at Bude:

route_df <- route(from, to, structure = "route")
```

Information from URL : <http://maps.googleapis.com/maps/api/directions/json?origin=Bude+North+Cornwall>

```
